

HRK-EXPERTISE Internationalisation

An international approach and a global perspective are essential for the quality of teaching and research at German higher education institutions. Therefore, a comprehensive, strategic, quality-oriented internationalisation ensures that German universities and the country's higher education system as a whole remain competitive.

Funded by the Federal Ministry of Education and Research (BMBF), the project HRK-EXPERTISE Internationalisation aims at supporting German higher education institutions in creating the necessary conditions for successfully enhancing their institutional internationalisation.

The primary aims of the project are to

- provide advice to German universities to develop and refine institutional internationalisation strategies
- support German universities to work on selected topics of internationalisation in greater depth as well as to implement concrete measures of internationalisation
- identify and disseminate examples of good practice, promoting the exchange of knowledge and experience and encouraging networking and cooperation within the German higher education system as a whole

Thematic Clusters

- Internationalisation mainstreaming
- Internationalisation and digitisation
- International visibility
- Internationalisation of research and young academics
- International campus and culture of welcome
- Internationality and cultural diversity of university staff
- Internationalisation and capacity building
- International mobility of students, teachers and administrative staff
- International classroom and cultural diversity of the student body
- The role of local and regional networking in internationalisation

Service Portfolio

Audit

analyses the university's internationality and gives recommendations for its (further) strategic internationalisation.

Audit compact

offers a condensed version of the Audit, tailored to the needs and resources of small universities (<10.000 students).

Audit strategy workshop

provides the Audit-service to very small universities (<1.000 students).

Re-Audit

supports audited universities actively achieving their internationalisation goals.

Thematic workshop

analyses and deepens specific internationalisation topics.

Process workshop

improves and analyses concrete processes of internationalisation.

Round table

discusses activities and solutions to regionally relevant questions of internationalisation with local stakeholders.

Peer-to-peer

facilitates the systematic exchange on a specific question related to internationalisation with a peer group.

Networking conferences

stimulate the exchange of experiences and promote cooperation within the higher education system.

Symposia

discuss innovative concepts and current issues of internationalisation.

Publications and manuals

present examples of good practices and relevant process descriptions.

Website

informs about activities and offers of the project.
