## Release Dr. Ahmadreza Djalali on medical parole

Your Excellency:

I write to express grave concern for the health and well-being of Dr. Ahmadreza Djalali, who repeatedly has been refused medical care in prison. I respectfully urge you to call on the appropriate authorities to immediately release Dr. Djalali on medical parole.

The German Rectors' Conference (Hochschulrektorenkonferenz / HRK) is the umbrella organisation of public and government-recognised universities in Germany. The HRK brings together all major German universities and universities of applied sciences. The HRK itself and a larger number of its 268 member institutions believe that German-Iranian cooperation in the fields of science, research, and exchange holds great potential. Currently, there are 77 formal agreements between higher education institutions in Germany and Iran. The broad scope of cooperation ranges from the exchange of students, doctoral candidates, and senior researchers to joint research and publications. Over the last three years, in particular, we have taken significant steps towards strengthening our ties with partner institutions in Iran. We would like to build on these success stories and the positive outcomes of numerous joint initiatives, workshops and visits of both German and Iranian delegations.

As mentioned in several previous letters in support of Dr. Djalali, we strongly believe that international cooperation must be firmly grounded in the standards of academic freedom and the protection of human rights. Without these principles, a

successful and lasting partnership between Iran and Germany will be extremely difficult, if not impossible, to uphold.

Dr. Djalali's conviction, capital sentence, and the affirmation thereof – in addition to the circumstances of his arrest and confinement – suggest a troubling disregard for international standards of academic freedom, due process, fair trial, and humane treatment of prisoners, as guaranteed in the Universal Declaration of Human Rights and the International Covenant on Civil and Political Rights, to which Iran is a party.

Compounding these due process concerns are reports that Dr. Djalali is facing increasing health complications, including diarrhea, weight loss, and a possible tumor. He has been denied medical care several times and has recently been informed that his bone marrow cells have severely weakened, indicating a high possibility of leukemia. Dr. Djalali was scheduled to see a blood and cancer specialist at a hospital on February 5; however, prison authorities prevented him from going.

I therefore respectfully ask you to intervene, urging the relevant authorities to immediately release Dr. Djalali on medical parole.

I appreciate your attention to this important matter and look forward to your reply.

Sincerely,

A handwritten signature in black ink, appearing to read 'Peter-André Alt'. The signature is written in a cursive, flowing style.

Professor Dr. Peter-André Alt  
President
