Reverse conviction and sentencing of Dr. Ahmadreza Djalali

Your Excellency:

I write to express grave concern over the Supreme Court's recent affirmation of the death sentence issued against Dr. Ahmadreza Djalali, a scholar of disaster medicine who was arrested in April 2016 in apparent retaliation for peacefully exercising the right to academic freedom. I respectfully urge you to call on the appropriate authorities to reverse Dr. Djalali's capital sentence immediately and to ensure his unconditional release.

The German Rectors' Conference (Hochschulrektorenkonferenz / HRK) is the umbrella organisation of public and government-recognised universities in Germany. The HRK brings together all major German universities and universities of applied sciences. The HRK itself and a larger number of its 268 member institutions believe that German-Iranian cooperation in the fields of science, research, and exchange holds great potential. Over the last two years, we have taken significant steps towards strengthening our ties with partner institutions in Iran. We would like to build on these first success stories and the very positive outcomes of numerous joint initiatives, workshops and visits of both German and Iranian delegations.

However, we also strongly believe that international cooperation must be firmly grounded in the standards of academic freedom and the protection of human rights. Without these principles a successful and lasting partnership between Iran and Germany will be difficult to uphold.

Dr. Djalali's conviction, capital sentence, and the affirmation thereof – in addition to the circumstances of his arrest and confinement – suggest a troubling disregard for international standards of academic freedom, due process, fair trial, and humane treatment of prisoners, as guaranteed in the Universal Declaration of Human Rights and the International Covenant on Civil and Political Rights, to which Iran is a party.

I therefore respectfully ask you to intervene, urging the relevant authorities to reverse Dr. Djalali's capital sentence immediately, secure his unconditional release from prison, drop all charges against him, and, pending this, to ensure his access to proper medical treatment.

I appreciate your attention to this important matter and look forward to your reply.

Sincerely,

Professor Dr. Horst Hippler
President
