What do we mean by internationalisation?

German idea of internationalisation?

A scientist in Munich can adapt easily in Mainz

External idea of internationalisation?

A scientist from Anywhere can adapt easily to the local University

We do what we preach

15 different Nationalities

Spin Phenomena Interdisciplinary Center
globally connecting nature, cultures, and people

**We want to be the must-visit international meeting
point for the top interdisciplinary scientists**

How to shorten this time?

Mission: *actively* merge fields researching spin related phenomena

Spin: the multi connector

THE NEED FOR SUCH A CENTER

Germany does not have such a permanent centre that competes with KIPT and Lorenz

Excellence in Teaching and in Research: the end of the zero sum game

The ideal standard benchmark for the new German Tenure-Track System

Mission Statement

The Cottrell Scholars Collaborative aims to promote, develop, and implement the integration of transformative scientific discovery with teaching of science at U.S. colleges and universities.
