Abstract

International Education as we have known it has evolved from a fragmented approach on study abroad and international students into a strategic and comprehensive internationalization concept that affects all aspects of higher education. The SAGE Handbook of International Higher Education serves

08.7.2025

as a guide to internationalization of higher education and offers new strategies for its further development and expansion in the years to come. With a decidedly global approach, this groundbreaking volume brings together leading experts from around the world to illustrate the increasing importance of internationalization. It also encompasses the diversity and breadth of internationalization of higher education in all its thematic facets and regional impacts. The Handbook comprises five sections, covering key areas: internationalization of higher education in a conceptual and historic context; different thematic approaches to internationalization; internationalization of the curriculum, teaching, and learning process; intercultural competencies; the abroad dimension of internationalization and the mobility of students, scholars, institutions, and projects; and a concluding section on regional trends in international education and direction for the future of internationalization in the 21st century.
