**Abstract**

The Sino-Danish Center for Education and Research (SDC) is a non-profit Sino-Danish university collaboration with equal ownership and responsibility for the joint activities. Collaboration is not easy, however; it is an ongoing process to meet the educational traditions, cultures and regulations of both countries, to turn challenges into solutions, and add value to the projects. However, strong governmental support, long-term financial support and a pragmatic approach to issues encountered were crucial for getting through the set-up phase and establishing a strong foundation for further development.
